

AMENDMENTS TO THE DRAWING:

A new replacement drawing sheet is submitted herewith in which a corrected labelling, now 11, of the schematically indicated strike off element has been made. This strike off element 11 is in the preferred embodiment identical with the funnel element 2 which is reciprocally movable as indicated by the arrow. As stated in the description, this strike off element also be a separate blade but this embodiment is not claimed specifically and is not shown in the figure.

It is presumed that this amended drawing, together with the amendments to the specification, and the claims will correct the deficiencies pointed out in parts 3, 4 and 5 of the Office Action.
